

## Meeting report

<b>Meeting</b>	1 – Kick-off meeting
<b>Date</b>	Wednesday, September 29, 2010
<b>Time</b>	09:30
<b>Venue</b>	D20.19
<b>Attendees</b>	Pierre Kuonen, Roche Jean-François, Valentin Clément, Jonathan Stoppani
<b>Discussed issues</b>	<ol style="list-style-type: none"><li>1. Some points about the project development/final report were clarified.</li><li>2. All questions presented in the meeting agenda where addressed (refer to the “Decisions” section for the important responses);</li></ol>
<b>Decisions</b>	<ol style="list-style-type: none"><li>1. The main technical goal of the project is to study a possible implementation of the <b>POP Model</b> in Python, not to create an alternate but compatible model (main point: not based on Futures/Deferreds);</li><li>2. The next meeting should serve to discuss an initial draft of the specification and the planning (which final delivery date is the 15. october).</li><li>3. Other points include:<ul style="list-style-type: none"><li>• No inline references in the final report;</li><li>• 2 kinds of goals in the specifications (Technical and Managerial)</li></ul></li></ol>
<b>Open points</b>	<ol style="list-style-type: none"><li>1. Set the web server to send the correct headers with the PDF files (“open in browser” instead of “save to disk”);</li></ol>
