

## Task

- **1) Project management**
  - 1.1) Kick-off and brainstorming
  - 1.2) Specification
  - 1.3) Planning
- **2) Analysis**
  - **2.1) Communication & protocol(s) analysis**
    - 2.1.1) Installation of POP-C++ on different computers
    - 2.1.2) Definition of "analysis-cases"
    - 2.1.3) Coding and measurement of the analysis-cases
    - 2.1.4) Analysis of the results
    - 2.1.5) Protocol definition
  - **2.2) Python-model implementation approach**
    - 2.2.1) Collection of information about tools and libraries
    - 2.2.2) Analysis and comparison of the different technologies
- **3) Design**
- **4) Coding**
- **5) Documentation**
- **6) Milestones**
- **7) Deliverables**
